

CLOVER FLEX POCKET

A slim and mobile POS to
take payments on the move

The lightweight
Flex Pocket packs the
power and features
of a full-sized POS
into a compact,
portable design.

Flex Pocket is
25% LIGHTER
than the original Flex
and can easily be carried
around in your hand, apron
or *back pocket*.

- Clover Flex Pocket works as a standalone POS system or in conjunction with other Clover devices.
- With Wi-Fi and LTE connectivity, Flex Pocket can handle tableside orders, scan barcodes on the retail floor or accept payments anywhere.
- A full 8 hours of battery life will keep your business running all day without the need for recharging.
- The slim, printerless design simplifies transactions with digital receipts via text or email.
- Customers can swipe, insert or tap their cards, or use digital wallets such as Apple Pay®.
- Real-time reporting allows you to monitor sales, manage inventory and track your team's performance from anywhere.
